1. Purpose of Document

The purpose of this document is to briefly explain the test coverage, defect status, and open issues of the **HouseHunt** project at the time of release to User Acceptance Testing (UAT).

This document summarizes:

- Test execution status
- Defect resolution summary
- Test case coverage
- System stability before final deployment

The UAT phase ensures that the system meets business requirements and is ready for production deployment.

2. Defect Analysis

This report shows the number of resolved or closed bugs at each severity level and how they were resolved during the UAT phase.

 Severity Levels:

- **Severity 1:** Critical (System crash, security failure)
- **Severity 2:** Major (Core functionality failure)
- **Severity 3:** Medium (Partial functionality issue)
- **Severity 4:** Minor (UI/Validation issues)
